

Cell-Vet

Maximizing Cell Vitality

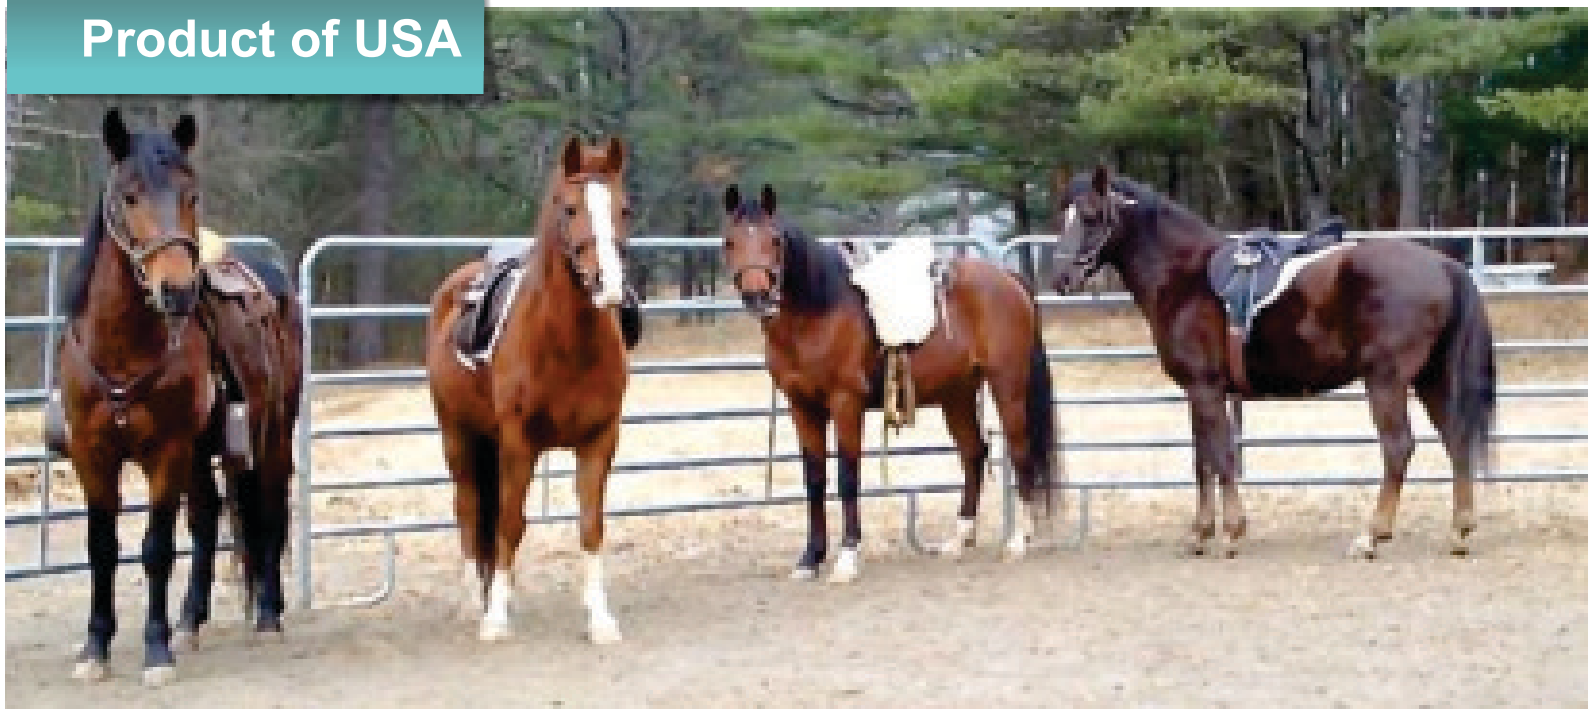

The World's Leading Oxygen Supplement

Oxygenates, Detoxifies & Nourishes Cells

POWER OF
OXYGEN

Creates Nascent Oxygen and Hydrogen

Product of USA

The Cell-Vet Oxygen Mineral Supplement Company

What is Cell-Vet™ ?

Cell-Vet® is a liquid, highly-concentrated, super-energized, colloidal mineral and nutritional supplement, which you add to the drinking water of your Horse on a daily basis, in order to maintain its peak performance and general well-being.

What are the Benefits of using Cell-Vet™ ?

Cell-Vet® is environmentally and ecologically safe for all types of Horses. It has no detrimental side-effects, and has numerous benefits for your Horse:

- Enhances vitality and energy
- Replaces Electrolytes Lost during Training
- Promotes Peak Performance
- Having calming effect on Horses
- Reduces lethargy or distress
- Reduces unbalanced hyperactivity
- Protects against diseases
- Enhances optimal bodily functions
- Strengthens systems, e.g. immune system
- Balances body mass
- Improves digestion
- Enhances texture and sheen of coat

What are the other reason for using Cell-Vet™ ?

Works fast and effectively
Cost-effective and easy to use
Achieves sustainable results

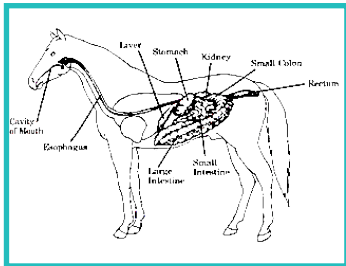

How does Cell-Vet® achieve results?

Cell-Vet® achieves results in a unique and amazing manner by supplying your Horse with essential nutrients, elements and minerals, as well as nascent oxygen and hydrogen

(due to the splitting of water molecules inside your Horse), all in a controlled manner and at cellular level, where it is most needed. As soon as your Horse drinks water with Cell-Vet® in it, Cell-Vet® starts working in its most amazing and unique manner on many levels of your Horse.

PHYSICAL & ELECTROMAGNETIC LEVELS

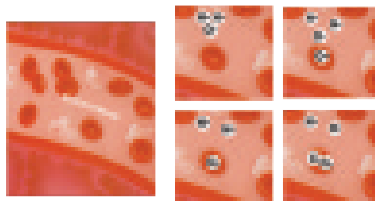

Cell-Vet® Minerals are in physical colloidal form. Colloidal particles are minute and negatively charged. Because most bodily fluids (like blood and lymph) are colloidal, your Horse's bodily systems perceive Cell-Vet® as normal healthy body fluid, and allow these micro-nutrients to pass immediately through the sensitive tissues of

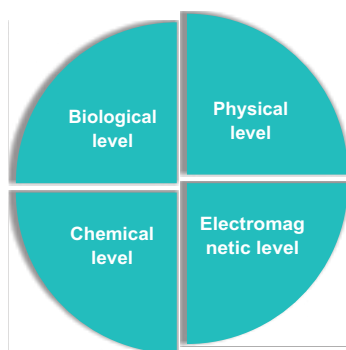

your Horse's mouth, throat and oesophagus into the blood stream. They are then transported to all parts of your Horse, at cellular level.

CELLULAR NUTRITION

ASSIMILATION

As soon as your Horse drinks water with Cell-Vet® in it, Cell-Vet® starts working in its most amazing and unique manner on many levels of your Horse

CHEMICAL & BIOLOGICAL LEVELS

Cell-Vet® Oxygen

(from splitting of water molecules) is used in the production of metabolic energy, and for oxidizing toxins and metabolic body waste for effective elimination.

Cell-Vet® Hydrogen

(from splitting of water molecules) is used for irrigating, building and strengthening cells and organs, preventing inflammation, moistening lung surfaces for gas diffusion, and regulating body temperature.

Cell-Vet® Amino Acids

build proteins, hormones, neurotransmitters and anti-bodies, building your Horse's immune system for resisting viral, bacterial and fungal infections.

Cell-Vet® Enzymes

enhance the digestive and metabolic functions of your Horse, enabling it to assimilate more nutritional benefits, than previously, from the foods that it eats.

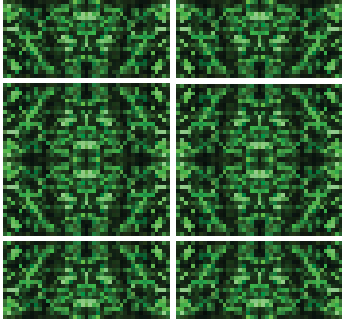

Our proprietary Micro-Activated™ Delivery System, and Electroculture™ Technology, which are used in formulating and conically bonding Cell-Vet® ensure that over 95% of the nutrients are immediately absorbed into your Horse's blood stream. By thus bypassing the digestive system, nutrients are rapidly available for assimilation by all parts of the body.

What else Cell-Vet® good for?

Cell-Vet® diluted (1ml Cell-Vet® per 20 ml distilled or filtered water) can be applied topically to wounds and sores on the animal's skin. Apply as often as required.

INGREDIENTS

Cell-Vet® is a registered blend of natural plant-sourced minerals, nutrients and electrolytes in ionic colloidal suspension, and proprietary elements that supply controlled nascent oxygen and hydrogen at cellular level.

All ingredients are organic (but not certified as yet) and totally non-toxic. They are cryogenically, not chemically, extracted to ensure maximum pureness and potency. No alcohol or glucose is used in the product. **Cell-Vet®** is also hypo-allergenic.

70 Main Elements, Minerals and Trace Minerals in Cell-Vet®

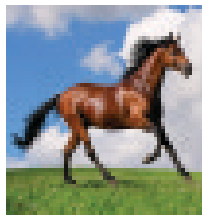

Element	Element	Element	Element
Actinium	Fluoride	Nickel	Silver
Antimony	Gadolinium	Niobium	Sodium
Astatine	Gallium	Osmium	Sulfur
Barium	Germanium	Palladium	Tantalum
Beryllium	Gold	Phosphorus	Technetium
Bismuth	Hafnium	Platinum	Tellurium
Boron	Holmium	Polonium	Terbium
Bromine	Indium	Potassium	Thallium
Calcium	Iodine	Praseodymium	Thorium
Carbon	Iridium	Promethium	Tin
Cerium	Iron	Rhenium	Titanium
Cesium	Lanthanum	Rhodium	Tungsten
Chromium	Lithium	Rubidium	Vanadium
Cobalt	Lutetium	Ruthenium	Ytterbium
Copper	Magnesium	Samarium	Zinc
Dysprosium	Manganese	Selenium	Zirconium
Erbium	Molybdenum	Silica	
Europium	Neodymium	Silicon	

Cell-Vet® has its own Proprietary Formulation.

How do I give Cell-Vet® to my horse ?

As a general rule of thumb, 1ml of Cell-Vet® per 100 kg of body weight added daily to the drinking water of the animal can be used as guideline to determine the quantity of Cell-Vet® to be used. Make sure your Horse finishes the whole water.

Daily water intake	Cell-Vet® to be administered as follows:			
	Days 1 & 2	Days 3 & 4	Days 5 & 6	Day 7 onwards
20 litres	1 ml	2 ml	3 ml	4 ml

Is Cell-Vet® a medicine?

Cell-Vet® is not a medicine. As a nutritional supplement, it provides your horse with a constant stream

of essential building blocks (e.g. oxygen, minerals, etc.) so that its systems can optimally carry out their functions of energising, cleansing, building, balancing and protecting living tissue every day.

Disease Conditions: *If your horse suddenly shows signs of getting sick, double existing number of drops of Cell-Vet® being added to its water at the time, to boost your horse ability to resist disease.*

An animal cannot overdose on **Cell-Vet®**. Its bodily systems will simply eliminate any unused excess.
